The high tractive force in the plastic covered types is due to a combination of magnets and steel pole pieces

In many shops and stores promotional materials and posters are presented by using ceiling magnets which are economical, flexible, reusable and almost invisible. They can be used again and again.

BM ceiling magnets are available in two types: plastic covered and metal covered. The high tractive force in the plastic covered types is due to a combination of magnets and steel pole pieces. This results in a small magnetic system with optimum results. In the table below the magnetic force listed for the various models of ceiling magnets is a value derived from tests under defined circumstances on steel of 2cm thickness.

“They can be used
again and again”

If the magnets are used on thinner or coated ferrous material values will be lower.

Plastic covered ceiling magnets with open hook

Article Number	Dimensions (mm)	Tractive Force (kg)
300.003/00/01	ø 43	6
300.004/00/01	ø 52	9
300.005/00/01	ø 62	14
300.008/00/01	29 x 33	6
300.009/00/01	44 x 33	9

Metal covered ceiling magnets with open hook

Article Number	Dimensions (mm)	Tractive Force (kg)
300.022/00/01	ø 16	1
300.023/00/01	ø 20	2
300.024/00/01	ø 25	4
300.025/00/01	ø 32	6
300.026/00/01	ø 36	8
300.027/00/01	ø 40	10
300.028/00/01	ø 47	16
300.029/00/01	ø 50	18
300.030/00/01	ø 57	22
300.031/00/01	ø 63	25

Ceiling magnets - specials

Article Number	Description / Dimensions (mm)	Tractive Force (kg)
300.006/00/01	ø 40 plastic cover, with closed eye	12
300.011/04/01	58 x 58, with threaded end M6, plastic cover, black	29
300.012/01/01	27 x 13 with closed eye, plastic cover, grey	10
300.015/00/01	ø 22 metal cover, extra strong Nd-magnet, with open hook	15
